Second SIG-Web meeting (Palo Alto, CA)

-----  
The first SIG-Web meeting, held 10/7/93 was a big success! Please see <<http://www.library.ucsf.edu/www/public/SIGWEB/index.html>> for details.

The second SIG-Web meeting will be held at the Xerox Palo Alto Research Center (PARC) November 19th, from 2-5 PM (PST). See below for directions.

November's meeting will focus on "success stories" of various SIG-Web members; we'd like to hear about the network information services you're providing, and also your success in making network information available to your local community.

For those who can't make it, the meeting will (most likely) be broadcast over the Internet Multicast Backbone (MBONE). (See <<ftp://venera.isi.edu/mbone/faq.txt>> for details.)

Presentations will include:

- Benay Dara-Abrams will demonstrate Silicon Valley Public Access Link, the community network for Santa Clara County.
- David Martin of UCSF will talk about the RedSage project, and other

things going on at the UCSF Center for Knowledge Management.

- Mitra will talk about Gopher access to Journal Graphics, and providing commercial service to dial-up users.
- Steve Putz will show some World-Wide Web gateways to other information sources he's developed at Xerox PARC. Larry Masinter will demonstrate MOO-Gopher, a gopher interface from inside a mud.
- There will be an open session for people to get up and talk about their servers and organizations.

If you'd like to make a presentation or give a demo, please send mail to [mcrae@ckm.ucsf.edu](mailto:mcrae@ckm.ucsf.edu), saying how much time you'd like and what kind of equipment you'll need.

### Working Groups

It's been suggested that we devote the last 30 minutes or so of each meeting split up into smaller groups. The last half-hour of this meeting, we'll decide which subgroups we'd like to have.

Send questions, comments, suggestions to [mcrae@ckm.ucsf.edu](mailto:mcrae@ckm.ucsf.edu).

Requests to be added to/deleted from the sig-web mailing list should be sent to [sig-web-request@library.ucsf.edu](mailto:sig-web-request@library.ucsf.edu).

Chris

Contact: Chris McRae  
Email: [sig-web-request@library.ucsf.edu](mailto:sig-web-request@library.ucsf.edu)  
Phone: (415) 476-3577

Date: Friday, November 19, 1993  
Time: 2:00 - 5:00 p.m.

Parking: Building 34 Lot, across the street from the auditorium  
Where: PARC Auditorium  
Xerox Palo Alto Research Center (PARC)

3333 Coyote Hill Rd.  
Palo Alto, CA  
(415) 812-4000

The PARC Auditorium is located at 3333 Coyote Hill Rd. in Palo Alto. PARC is in the Stanford Research Park, between Page Mill Road (west of Foothill Expressway) and Hillview Avenue. The easiest way to go is to get onto Page Mill Road, then turn onto Coyote Hill Road. As you drive up Coyote Hill past the horse pastures, PARC is the building on the left after you crest the hill. Park in the Building 34 lot across the street, and enter the auditorium at the upper level of the building. (The auditorium entrance is located down the stairs and to the left of the main doors.)
